

VIRTUAL kit: PROMOTING TEAMWORK

kit QT

When programs and their staff members are well-aligned and able to operate effectively as a team, it promotes an atmosphere that fosters high levels of motivation, cooperation, and support for one another. Considering the many obstacles that early childhood providers face daily, having a team that happily supports one another is critical. While some relationships may form quickly, others may take intentional planning and effort to develop feelings of interconnectedness and operating as a strong “unit.” When regularly promoted, positive teamwork can maximize strengths and create a positive, caring community that is palpable throughout the program.
