

# Welcome!

Congratulations on making the decision to become a child care provider and joining others in making a difference for infants and toddlers in Kansas!

**The KCCTO-KITS Infant-Toddler Specialist Network (ITSN)** consists of professionals from a diverse educational and experiential backgrounds who can provide a variety of supports, services and resources to family and center child care providers, early childhood educators, and child care directors across the state of Kansas.

As a provider, we can support you with access to community-based, content specific training, conference calls, on-site visits, short or long term consultation and coaching, and intensive technical assistance plans (as requested/needed).

In addition to the resources listed above, ITSN also offers varied online resources and support. Online courses have been developed for both new and experienced child care providers in Kansas and course schedules and descriptions can be found at [www.kccto.org](http://www.kccto.org). The technical assistance [link](#) found on [www.kskits.org](http://www.kskits.org) provides you quick access to relevant and reliable web-based resources on topics important to our field and our practices.

As early childhood professionals who have also worked with young children and their families, we are excited to join you in providing quality care for Kansas children! For more information or to speak with an Infant-Toddler Specialist in your area, please call the KCCTO office at 800-227-3578 or 785-532-7197. We are also available through email at [kccto.inc@gmail.com](mailto:kccto.inc@gmail.com).
